REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the closest prior art to Fung teaches a process for converting an oxygenate feed to light olefins wherein the feed comprises methanol, ethanol, propanol and butanol. However, Fung does not disclose or suggest the claimed butanol content of less than 3 weight percent but instead discloses a higher butanol content from about 5-90 wt%.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
